

Bryan Buenaventura

(510) 921-2349 | bryan@dystinc.com | 1235 Terminal Place, San Mateo, CA 94401 USA

Tech-savvy and team-oriented leader with numerous degrees & technical certifications. Launched a security technologies firm over 17+ years ago that currently grosses \$5M+ annually. Administers budgets, collaborates with stakeholders, and delivers projects on time and budget. Uses interpersonal, analytical, organizational, negotiation, critical thinking and active prioritization to thrive within challenging environments. Never one to stop learning, I obtained my Project Management Professional Certification (PMP #3638336) in 2023.

I'm also a firm believer that open & frequent communications are the key to all of life's relationships, especially in business.

Professional Experience

Spider Security Products | Self-Employed (Part-Time) | August 2018 - Present

- Operate an e-commerce website www.spiderprotect.com via direct-to-consumer and Amazon FBA.
- Administer operations including advertising, budgeting, accounting, forecasting, while developing strategies to increase profits.
- Devise & implement strategic business plans to increase long-term business growth, and increase profits 10-20% annually.
- Analyze the customer's journey through the website to identify opportunities to enhance user experience and improve sales.

Dynamic Security Technologies | Founder | September 2007 - Present

- Identified market needs and launched a company providing security technology integration services for clients in CA and NV.
- Led a team of 30+ and navigated the business to generate over \$40 million in lifetime sales.
- Strategically administered budgets, allocated resources, oversaw all project lifecycle phases from 'concept to completion'.
- Monitored and identified emerging technologies, perpetually assisting customers into resolving complex security challenges in rapidly changing environments.

Siemens Building Technologies | Project Coordinator

- Spearheaded major mission-critical projects for leading organizations including SF General Hospital, Virgin America, Nvidia, Genentech and more. Created and used my own project spreadsheets to track progress, reduce costs and increase profits.

WBE Security (IBEW Local #6) | Senior Technician

- Quickly rose to atop of the Union role/position and pay scale through working excellence and unparalleled performance; Assigned with the most challenging access control, burglar alarm system, audio/visual projects throughout the San Francisco Bay Area for vertical markets that include healthcare, tech, education, and more.

Capitol Communications (IBEW Local #6) | Lead Technician

- Accomplished security, voice/data/fiber/telecommunications projects at optimal levels of quality, thoroughness and job profitability.

RFI Communications & Security | Project Leader/Installer

- Completed National Electronic Systems Technicians Union apprenticeship and was quickly promoted to Journeyman Technician.
