

Diagram illustrating the wiring and connection details for the Eagle Eye DS200 device.

The device is connected to a 120VAC power source. A CAT6A patch cable (1M) connects the device's SMB port to an SMB with CAT6A female connector (RJ45 EMI/RFI shielded). This connector is then connected to a CAT6A "home run" cable that runs to a patch closet.

A HDMI cable connects the device's HDMI port to a 27" LCD monitor, which is wall or desk mounted. The monitor is also connected to a 120VAC power source.
